

**Subject:** VMS Reporting - Today's Issue 1/29/19

Dear Executive Director,

SUBJECT: VMS Reporting

As you are aware, the Federal Government was shutdown from December 22<sup>nd</sup>, 2018 through January 25<sup>th</sup>, 2019. Therefore, most HUD programs and systems, including the Voucher Management System (VMS) were temporarily interrupted. That being said, needed uploads to the VMS were not performed, which resulted in technical issues and submission problems for many Public Housing Authorities (PHAs).

These uploads have now been completed, and Financial Analysts (FAs) at the Financial Management Center (FMC) will be working with their PHAs to get all outstanding VMS data submitted. PHAs should be working to get all CY2018 data submitted, which includes December, 2018 data.

Please contact your FA if you have any questions, and we apologize for any inconvenience this has caused your PHA.

Sincerely,  
Robert Boepple  
Director, Financial Management Center
